

# Seamless Payments with Thesis SM & Flywire

## What is Thesis SM?

**Thesis SM**, our **cloud-native** Student Information System, purpose-built for **higher education institutions** in the **UK, Ireland** and **Canada**, includes integrated fee payment capabilities through Flywire. This streamlined solution enables institutions to manage both domestic and international payments directly within the product, ensuring accuracy, compliance, and real-time transparency. The result: improved efficiencies reducing manual workarounds, less student queries and an enhanced payer experience for students and applicants.

## What The Flywire Integration Delivers:

- Real-time, in-system payments in the student's local currency, enabling payments in 140+ currencies
- Automatic reconciliation to the student account
- No need for manual entry of payment information across different systems
- Multilingual, around-the-clock Flywire support for international payers
- Personal information is stored securely within Flywire, reducing institutional risk
- Transparent exchange rates and no hidden fees

## How it works?

1. Student logs in to the Thesis SM Portal
2. The student can then:
  - Easily make full or partial payments against outstanding balances within the financial account
  - Pay deposits
  - Pay application fees
3. When making a payment Flywire is presented as an option
4. Student selects their preferred method of payment (bank transfer, card, local options)
5. Payment is processed and tracked in real-time
6. On successful payment the Financial Account within Thesis SM is updated automatically

"Flywire is proud to partner with Thesis, our partnership empowers educational institutions to streamline their payment processes. Our advanced payment solutions are designed to integrate seamlessly with Thesis' student information systems, enabling their customers to manage domestic and international payments with greater efficiency and ease."

**Oliver Musset** - Senior Partner Manager at Flywire

## Why It Matters to Institutions

- Enhanced payment experience for international students
- Less admin chasing unidentified bank transfers or short payments
- Fewer payment-related queries; more time for students with complex support needs
- Full visibility and audit trail within the Thesis SM system
- Aligns with digital transformation and finance automation goals for universities, conservatoires and colleges

“Thesis SM is designed to streamline the academic experience for both students and staff. Integrating Flywire directly into SM further strengthens this. It provides students with a secure, intuitive way to manage payments right within the system they use to register for classes and track their progress. For staff, it means less time spent on manual tasks, allowing them to focus on what matters - supporting students. This partnership reinforces our commitment to helping Higher Education Institutions operate more efficiently and create seamless, student-first experiences across every touchpoint.”

**Cerys Owen - Director of Product at Thesis SM**
